

Measurement

Learning Objective:- I can use natural materials to measure angles outdoors

Angle Hunt

You will need:-

Sticks
Pipe cleaners

Firstly, make a 'right angle' out of sticks and a pipe cleaner. Next, use your angle to identify objects that have right angles. You can also identify objects that have angles greater than 90 degrees (obtuse) or less than 90 degrees (acute.)

Questions:-

What is the smallest angle you can find?
What is the largest angle you can find?
Do right angles exist in nature?
How do you know?

Have fun!

We look forward to seeing photographs of your activity. Please send any photographs to e:mail admin@keyinghamprimary.co.uk
