

## Measurement

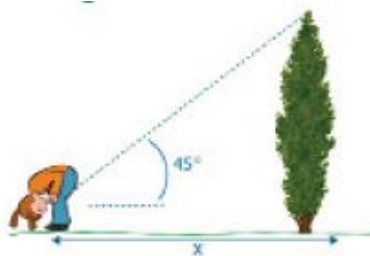

Learning Objective:- I can carry out an investigation to measure the height of a tree

Measure the height of a tree by standing at the base of it and then walking away from it until you can see the tree when you look up through your legs. The distance you are away from the base of the tree is equivalent to the height.

### Questions:-

What will you use to measure the distance you are from the tree?

How will you know you are accurate?

Record your findings.

Have fun!

We look forward to seeing photographs of your activity. Please send any photographs to email [admin@keyinghamprimary.co.uk](mailto:admin@keyinghamprimary.co.uk)
