

Symmetry ART

Something is symmetrical when it is the same on both sides. A shape has symmetry if a central dividing line (a mirror line) can be drawn on it, to show that both sides of the shape are exactly the same.

You will need:-

Sticks
Stones
Leaves

Activity 1

Place the following objects on either side of the stick to make a symmetrical pattern.

- 4 green leaves
- 2 brown leaves
- 2 yellow leaves
- 2 sticks
- 2 yellow leaves

Activity 2

1. Place a stick on the ground
2. Find natural objects to make your pattern
3. Place the objects on each side of the stick making sure to keep the pattern symmetrical.

Have fun!

We look forward to seeing photographs of your activity.
